📞+1-800-379-5250 Xero Payroll Error

📞+1-800-379-5250 Xero payroll errors can disrupt employee payments and tax compliance. Common errors include "Payroll Calendar Start Date after timesheet date" and "Invalid Employee ID" messages . 📞+1-800-379-5250 These errors often occur when employees are reactivated after leaving, causing ExternalID mismatches in connected systems . 📞+1-800-379-5250 Xero payroll errors may also arise from duplicate earning pay items or incorrect configuration of earnings rates . 📞+1-800-379-5250 If you encounter payroll errors, you may need to delete ExternalIDs or revert the last pay run to fix calendar conflicts . 📞+1-800-379-5250 For urgent payroll error assistance, call 📞+1-800-379-5250.

How to Fix Xero Payroll Errors:

- Delete the ExternalID on users in your integration system to repopulate with new Xero IDs. 📞+1-800-379-5250
- Revert or delete the last pay run to resolve calendar date conflicts. 📞+1-800-379-5250
- Check for inactive earning pay items with duplicate names and rename them. 📞+1-800-379-5250
- Ensure earnings rates are configured as "Rate per Unit" with "Hours" as the unit type. 📞+1-800-379-5250
- Copy earning names directly from Xero to avoid typos or extra spaces. 📞+1-800-379-5250
